Get Started: Create a FSA ID!

- The FSA ID is a username and password used by students, parents, and borrowers to:
  - login to U.S. Department of Education websites
  - electronically sign documents

- You will use it:
  - Every year you apply for federal student aid at fafsa.gov
  - To receive a federal student loan
  - To perform important activities as a federal student loan borrower, such as choosing a repayment plan or applying for a deferment
How do I create an FSA ID?
Create Your FSA ID (Username and password)

Create a New FSA ID

An FSA ID gives you access to Federal Student Aid’s online systems and can serve as your legal signature.

Only create an FSA ID using your own personal information and for your own exclusive use. You are not authorized to create an FSA ID on behalf of someone else, including a family member. Misrepresentation of your identity to the federal government could result in criminal or civil penalties.

To create your own personal FSA ID, enter answers for the questions below and select CONTINUE.

Important: When you are done click the CANCEL button to clear your data, even if you did not finish creating your FSA ID. Just closing your browser window or going to another website may not be enough to prevent other people using this computer from seeing your information until the session expires.

E-mail:
- Optional but strongly recommended
- Each FSA ID must have a unique e-mail address (you and your parent cannot use the same e-mail address)
- You must have access to this e-mail account

Username:
- Don’t include personal info such as date of birth or name
- If you see a message “Username taken, create a different username” then someone has already used that username

You can select “Show Text” to see what you’re typing
