Success for All: Transitional Services for Students with Special Needs

Margarita Landeros, Ed.D., PPS
Christopher Miller, M.S.
Ruthie Robles, M.S., PPS
Goals of the Session

- Realize the dynamic needs of students with IEPs
- Understand the articulation in accommodations between high school and college
- Self-reflect and better understand the current state of your school site
Equity versus Equality

- What might this mean in your perspective?
- What might this mean in the perspective of your organization/school?
- What might this mean when working with students with IEPs and students without IEPs?
Self-Assessment

How well is your school transitioning students with special needs to life outside of high school?

1. = We Are Amazing!
2. = We are working hard to ensure all students are ready for life after high school.
3. = We realize there is limited success for our students with IEPs after high school but have not started to solve the problem
4. = Not so much....
Our School

- Our school serves the area of MacArthur Park and our students are 98% Latino.
- We have a 240:1 counselor ratio and college counselor rotate with their cohorts.
- On average, 75%-80% four-year acceptance, 72%-76% enrollment.
- We have a teacher staff of 24; 16-18 of which teach in our college knowledge program.
Our School cont.

- On average, 15.4% of the students are part of the Special Education program.
  - 50% of students with IEPs are accepted and matriculate into four-year colleges.
- On average, 9% of the students are part of the English Language Development program.
- Over the last five years, our special education population has increased from 9% to 15% of our total student population.
Our Special Education Program

Our Special Education team focuses on highly developing advocacy and executive functioning with students.

Four Resource Specialists (RSP Teachers); one per grade level

Two Special Education Teaching Assistants

RSP teachers participate in weekly grade-level meetings

Full-inclusion Model
Nine Principles of College Counseling

1. College Talk
2. Clear Expectations
3. Information & Resources
4. Comprehensive Counseling Model
5. Testing and Curriculum
6. Faculty Involvement
7. Family Involvement

(MacDonald & Dorr 2006; McClafferty et al., 2002)
Our Expectation for All

- “College Ready, College Bound”
- All students are placed on A-G course requirement completion track
- All students receive college counseling services with a four-year college in mind
- All students take college-entrance examinations and receive free-test preparation
- Students are placed in intervention classes in addition to a Learning Center (for students with IEPs) as needed
Our Findings about our Students

Our students with IEPs often times need the following accommodations:

- Executive Functioning
- Small-group Testing
- Extended Time

The team is constantly assessing student mastery on executive functioning skills:

- Advocacy
- Timelines/Calendars
- Organization of Assignments and Documents
- Metacognitive skills
Student Scheduling

- Plan around required courses for IEP compliance and A-G course requirements per graduation
  - Learning Center
  - English Language Learners

- Collaborate with Case Manager to identify their progress (plops)

- Case Managers also conduct A-G checks independent from College Counselors and Administrators

- Students with IEPs in our scheduling system receive first priority in courses given constraints
Writing and Facilitation of Exit IEPs

- Our transition plan has always focused on postsecondary education
- All Exit IEPs include college-specific accommodations and services
- Our case manager and college counselors support students with establishing contact and appointments at prospective campus’ Office for Students with Disabilities
- Discussion of shift in accommodations to align with college accommodations
- Provide all students with printed copies of information regarding how to access these accommodations
Our Own Self-Assessment

- Organization-wide conversation on transitional support for students with IEPs
- Might four-year pathway truly be the best fit for all?
- How are our students fairing in four-year campuses versus two-year campuses?
- What are the skills we need to continue to develop with our students to help them be college-ready?
